A Happy Planet Showroom

You spend a lot of time in bed—about a third of your life. It should be the healthiest place in your home. Please take the opportunity to introduce yourself to the comforts of natural bedding.

We encourage you to visit our non-toxic San Francisco showroom and experience our luxurious, organic selections yourself. Our showroom carries a wide offering of organic mattresses and bedding accessories for the health conscious individual to try, as well as different organic manufacturers to compare with.

Our focus is to provide choices and alternatives in selecting the ultimate sleep system, and to enable the individual the resources to make good, sound decisions in choosing the best organic mattress system and bedding accessories firsthand.

In addition to our comprehensive organic mattress and bedding line, we offer the opportunity to consult with an organic bedding specialist to ascertain what is the most appropriate sleep system for your needs.

A HAPPY PLANET

We have established a solid reputation for our personalized service as well as offering high quality, functional products constructed using only the finest ingredients available; certified organic hand-picked cotton, pure wool, natural rubber and sustainable harvested, untreated wood.

The Collection is intended as a viable alternative for individuals with debilitating allergies and sensitivities to chemicals, toxins, molds, dust and other irritants. It also offers those wishing to implement living in a cleaner, safer environment the luxury of a top quality hand made product.

A Happy Planet offers a full, extensive line of organic, non-toxic mattresses and bedding accessories; a chemical free assortment of baby essentials, ranging from crib mattresses to newborn clothing; luxurious natural bath selections; hand crafted, solid maple furniture at affordable prices and natural wood flooring that is non-toxic.

This catalog highlights only a selection of what we have to offer. For more natural and organic selections, please visit our web site at www.ahappyplanet.com. View a comprehensive listing of all of our merchandise, special offers and links to other eco-friendly and informational web sites.

A Happy Planet supports sustainable, organic practices, non-toxic alternatives and fair labor practices. Be assured that any products found through us, at our showroom or on our web site, are made with certified organic fibers and are chemical free.

HOTEL TRITON

An eco-friendly hotel located at the gates of Chinatown is home to A Happy Planet's Organic Haven—a hotel room completely renovated to reflect an organic, chemical free bedding experience. Furnished exclusively with our products and featuring the Green Sleep mattress.

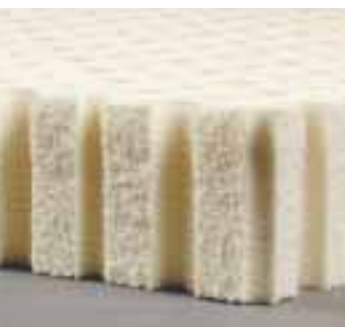

Enjoy a night at the Kimpton Group's boutique Hotel Triton; 342 Grant Avenue, downtown San Francisco, CA 94108. 1-800-800-1299, ask for our room, No. 315.

EUROPEAN IN DESIGN, ORGANIC IN NATURE

- The essential material in the Green Sleep Mattress Sleep System is its pure, natural rubber-core
- The resilience + elasticity of the natural rubber provides an ideal contact surface, contouring to every curve and angle of your body
- Reduces pressure points and offers excellent linear and lateral support
- Unsurpassed in comfort, quality and health

1

MATTRESSES GREEN SLEEP

The Green Sleep concept, based on extensive experience in the bedding industry and scientific studies on sleep, supports the conclusion that natural fibers are the best materials for an ideal sleep system. The use of high quality, natural, resilient raw materials in conjunction with an innovative manufacturing process results in the ultimate sleep system, which guarantees a much healthier and improved quality of sleep.

Introduced fifteen years ago to the European market, Green Sleep products are now available in North America. All products are constructed exclusively by a Canadian manufacturer with twenty-five years experience in the crafting of hand made, quality mattresses and accessories. The production facility, a chemical free environment, is dedicated to using only the finest natural and organic materials available. From each production stage, these sleep systems are designed to enhance the health of our customers, as well as the planet.

1. Green Sleep 3-Layer Natural Rubber Mattress

This multi-layer sleep system features three layers of natural rubber of various densities, zipped inside a luxurious organic cotton velour shell, with a lining of quilted pure wool and silk. The natural rubber used is the most resilient substance found in nature with a density that provides the ultimate comfort and support. Three rubber plates are each wrapped in organic cotton gauze and configured in a 2"-4"-2" format (firmest density is on the bottom 2-inches, softest density on the top 2-inches). The 4-inch rubber plate in the middle is customized to meet individual needs—firm, medium or soft density—dependent on the individual's size, weight, sleep style and preference.

Extremely durable, flexible and resilient, the mattress molds to your body and eliminates pressure points. Natural rubber minimizes transfer of movement. No metal. No synthetic flame retardants, polyesters or plastics used. Pure wool is naturally fire retardant. Rubber core is naturally resistant to allergens, mildews, molds and dust. Removable cover for easy maintenance.

Available in soft core (Indentation Load Deflection/ILD equals 22-25), medium core (ILD equals 32-35) and firm core (ILD equals 38-42). Queen and king sizes have side-to-side 4-inch rubber plates. Set includes a mattress and euro dowel foundation. Green Sleep organic cotton mattress pad recommended (#17, mattress pads). 9-inch depth. 10 year warranty. Canada.

2. Green Sleep Euro-Dowel Wooden Foundation

A unique, breathable foundation system designed to help fine tune support along the length of any natural mattress. A flexible suspension system uses wooden dowels, suspended on the frame, with adjustable polymer anchors to support the mattress. Sustainably harvested, kiln-dried maple with absolutely no synthetic glues, dyes or finishes used in any stage of production.

Wooden dowels are 1-inch in diameter and are spaced 2-inches apart. The interchangeable, recycled anchors (green is soft; beige is firm) are ranged into firmer and softer zones throughout the bed. Untreated spruce wood frame is covered in organic cotton fabric. 8-inch depth. 10 year warranty. Canada.

Organic Sleep Systems

Natural materials provide for the safest, healthiest and most restful sleeping environment. Free your body from the chemicals that come with a conventional mattress, and sleep on a more durable, more comfortable one.

Research has proven that natural, chemical free materials—pure wool, organic cotton, natural rubber + untreated wood—provide the best sleeping environment for health and longevity. The elasticity and breathability of these natural materials, as well as an ability to regulate moisture and heat, create an ideal sleep experience. The result is a sleep system that offers durability, superior temperature control, exceptional support and a better, more restful, night's sleep.

Our organic sleep systems provide a healthy, restorative sleep to both body and mind. We offer the finest organic ingredients, as well as eco-conscious manufacturing processes, resulting in healthy sleep systems that will improve your quality of sleep.

- Manufacturing expertise
- Hand sewn and finished
- Organic, renewable materials
- No formaldehyde
- No synthetic glues or dyes
- No plastics or polypropylene
- Superior breathability
- No fire retardants used
- Hypoallergenic (people do have allergens to natural rubber, wool or cotton; we have test kits available)

RESTFUL, HEALTHY, AND COMFORTABLE

- Crafted from the purest materials found in nature
- The Oasis organic bedding collection will comply with your environmental beliefs
- Acutely aware of the needs of the chemical-sensitive
- Provides premium long lasting products
- The Oasis organic sleep systems are hand made in the same Canadian manufacturing facility as the Green Sleep bedding products and accessories

MATTRESSES OASIS NATURAL RUBBER

3. Oasis Natural Rubber Mattress

The 6-inch natural rubber core, formed using the Dunlop process, increases resilience and allows complete breathability. Natural rubber is extremely resilient, durable and flexible. This unique molding creates a sleep surface which contours to your body, providing pressure point reduction. An industrial quilting system ensures maximum longevity and uniformity of the pure wool used to surround the rubber plate. Encased in a heavy-duty organic cotton damask fabric. Superior comfort, temperature regulation and durability will provide years of restful sleep.

No metal. No synthetic flame retardants, polyesters or plastics. Pure wool is natural fire retardant. Rubber core is naturally resistant to allergens, mildews, molds and dust. Available with medium core (ILD equals 32-35) or firm core (ILD equals 38-42). Set includes a mattress and wood slat foundation. 10 year warranty. Canada.

4. Oasis Wood Slat Foundation

Designed to be used with the natural rubber and futon mattresses, the slat foundation ensures proper support while providing adequate ventilation. Crafted from kiln-dried spruce wood. No glues or finishes used in construction. Solid wood slats, fitted following traditional European designs, are covered in a heavy-duty organic cotton damask fabric (2-inch wide slats, spaced 2-inches apart). 7.5-inch depth. 10 year warranty. Canada.

Mattress set	T \$1890	F \$2600	Q \$2790	K \$3260	CK \$3260

5. Oasis 6+2 Natural Rubber Mattress

A unique design composed of two separate layers of natural rubber. The bottom layer is 6-inches of firm rubber for exceptional support, while the top layer is 2-inches of soft rubber, providing the perfect amount of pressure point reduction and ultimate comfort. Rubber is surrounded with quilted layers of wool (2lbs per sq. yard of wool is needle punched, then quilted), and encased in a removable, organic cotton damask cover, allowing for breathability. Extremely durable, flexible and resilient, the mattress conforms to your body.

No metal. No synthetic flame retardants, polyesters or plastics. Pure wool is naturally fire retardant. Rubber core is naturally resistant to allergens, mildews, molds and dust. Available with soft core (ILD equals 22-25) or firm core (ILD equals 38-42). Set includes a mattress and wood slat foundation. 9-inch depth. 10 year warranty. Canada.

Natural Rubber

Natural rubber is a renewable resource—a natural, biodegradable substance. It is the milk, or sap, tapped from the hevea brasiliensis, the common rubber tree. The finest quality rubber is grown, harvested and processed locally, primarily on North Malaysian plantations. The trees are not cut down, and the local economy is complementary to this sustainable resource. The natural rubber used in mattresses requires very little fossil fuel energy to convert the milky sap into usable, safe products. Sap is harvested in the morning and molded into sheets the same day, resulting in an unusually pure product.

Mattresses constructed of a natural rubber core dynamically conform to your body shape which provides optimal support in any sleep position. This system also provides good independent support for two people of varying weights. Natural rubber cores are inherently anti-microbial, as well as dust mite, mold and mildew resistant.

- Natural dust mite repellent
- Superior durability and elasticity—mattress longevity
- Retention of shape and firmness—even support
- Flexibility combined with stability—sleep comfort
- Excellent heat and moisture regulation
- Superior air circulation—prevention of mold + mildew
- No ozone depleting products or processes

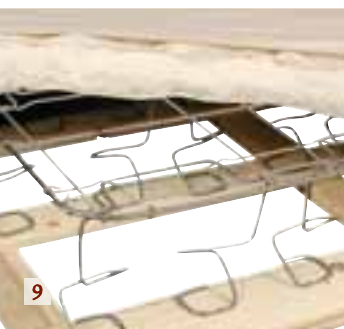

CHEMICAL FREE ELEGANCE AND TRUE CRAFTSMANSHIP

- Manufactured according to traditional methods
- Manufactured in a sterile and controlled work environment, free of chemicals and odors
- No toxic elements at any stage of production
- Electrically tempered steel coils, no oils or coatings
- Only the finest organic fibers, natural rubber and untreated woods are used to make these natural mattress sleep systems

9

MATTRESSES OASIS INNERSPRING

8. Oasis Organic Quilted Innerspring Mattress

Using a traditional Bonnell style innerspring, the electrically tempered 14 gauge steel coils are not treated with any oils, coatings or chemicals. The innerspring is covered with durable organic cotton fabric, as well as covered with layers of organic cotton batting. Fabricated using a multi-layered pad quilting construction, it ensures maximum longevity, prevents padding migration, promotes uniformity of the upholstery and adds to overall comfort. Extra carded organic cotton ensures a medium-firm feel. Layers of pure wool are quilted in the cover, adding breathability, moisture control and naturally retard flames. Features all around, reinforced edge protectors. Medium-firm (510 coil count/full size). Set includes a mattress + box spring foundation. 8-inch depth. 10 year warranty. Canada.

9. Oasis Organic Box Spring Foundation

Constructed of kiln-dried spruce wood. Support coils are high gauge coil using the "Senso Loc" system which provides a strong border wire to reinforce and hold coils in place and to prevent side sagging. Edges are reinforced as well to increase longevity. Uncoated steel coils covered with organic cotton batting on top. Entire foundation covered in heavy duty organic cotton damask fabric. 8-inch depth. 10 year warranty. Canada.

Mattress set	T \$1525	F \$1950	Q \$2175	K \$2890	CK \$2890

MATTRESSES OASIS FUTON

10. Oasis Organic Futon Mattress

The strength and success of this futon mattress lies in the two-inch natural rubber core, which is surrounded by multiple layers of organic carded cotton batting. The core is tufted to the batting and cover, which ensures maximum longevity, prevents padding migration, and adds to overall comfort. The organic cotton cover is quilted with wool, which lends flame retardant and dust mite repellent properties, not to mention moisture control. The versatile futon can be used as a sofa or mattress. 10 year warranty. Canada.

Dimensions **T** 39x75 **F** 54x75 **Q** 60x80 **K** 76x80 **CK** 72x84

MATTRESSES VIVETIQUE

11. Vivetique Natural Rubber Mattress

Inherently hypoallergenic, anti-microbial and dust mite resistant; perfect for allergy sufferers. Comprised of a pure, natural latex core formed by the Dunlop process and covered with a sturdy organic cotton cover quilted with Pure Grow Wool for natural flame resistance. Available with firm (ILD equals 31-33) or extra-firm (ILD equals 35-38). Set includes a mattress and wood foundation. 7-inch depth. 10 year warranty. USA.

Dimensions **T** 39x75 **F** 54x75 **Q** 60x80 **K** 76x80 **CK** 72x84

Mattress set **T** \$1890 **F** \$2600 **Q** \$2790 **K** \$3260 **CK** \$3260

12. Vivetique Organic Innerspring Mattress

The organic cotton/Pure Grow Wool innerspring mattress contains no bleaches, dyes or other toxic chemicals. It is constructed to breathe. Tempered steel for longevity and a Bonnell innerspring that utilizes different coil gauges to give your body the proper balance and support. The innerspring is layered in organic cotton, then wrapped in Pure Grow Wool. These layers are tufted to an organic cotton ticking cover. Available in medium firm (312 coil count), firm (510 coil count) and extra-firm (1000 coil count). Set includes a mattress and box spring foundation. 10 year warranty. USA.

T \$480 **F** \$600 **Q** \$670 **K** \$760 **CK** \$760

14

MATTRESS PADS

14. hom Organics Wool-Fill Mattress Topper

A soft, insulating layer of chemical free, virgin wool between the mattress and sheets. Wicks away moisture and provides even temperatures throughout the night. Ring-stitched to keep wool from shifting. 4 elastic straps hold pad securely to any mattress. Hand tufted, organic percale shell. Available in 1.5" or 2.5". USA.

1.5" Topper **T** \$240 **F** \$295 **Q** \$340 **K** \$420 **CK** \$420

2.5" Topper **T** \$265 **F** \$325 **Q** \$375 **K** \$460 **CK** \$460

15

15. Oasis Wool-Fill Mattress Overlay

A 2-inch pad is filled with a thick layer of wool, garnetted to make the fibers even. Covered in heavy duty organic cotton, it is machine quilted to increase the life of the pad and prevent the filling from shifting or clumping. All edges are bonded for added durability. 4 large, thick elastic bands fit any thickness of mattress. 3 year warranty. Canada.

T \$360 **F** \$425 **Q** \$535 **K** \$590 **CK** \$590

16

16. Oasis Rubber-Core Mattress Overlay

A 2-inch pad made with pure, natural rubber and covered in organic cotton fabric, forms a breathable, durable sleeping pad. Naturally antibacterial and hypoallergenic, the rubber core prevents moisture build-up. All edges are bonded for added durability. The organic cotton cover with pure wool quilted into it, is removable for ease in maintenance. 4 large, thick elastic bands anchor the pad to the mattress. 3 year warranty. Canada.

T \$480 **F** \$585 **Q** \$620 **K** \$740 **CK** \$740

- Extremely heat resistant; a natural flame retardant
- Naturally absorbent—moisture regulation
- Resilient in form and shape—superior durability
- Helps regulate temperature, cool in summer, warm in winter—great insulation
- Natural resistance to mildew
- Naturally repellent to dust mites
- Repels odor

Natural Wool

Due to the many characteristics inherent in wool, it is the perfect fiber for all organic mattress and bedding products.

All wool batting and fill is 100% pure. The sheep are raised organically, grazing on land never used for agriculture, thus ensuring that it is free from contaminants such as pesticides, herbicides and synthetic fertilizers. The resulting fleeces, shorn from live animals, are carefully sorted, and washed with only hot water and vegetable based soaps. No detergents, chemical or chlorine bleach are used, allowing the fibers to retain maximum strength and spring.

Fleeces are then processed without the use of oils or bonding agents, resulting in wool that retains 4-6% lanolin, a natural dust mite repellent. Moreover, no carbonizing, shrink-proofing or moth-balling is allowed.

Sheep are not killed for meat.

MATTRESS PROTECTORS

17. Green Sleep Organic Cotton Mattress Cover

Layers of organic cotton are quilted between an organic knit shell to create a soft, cozy mattress cover. Covers mattress all the way around like a fitted sheet with elastic edge. Protects against dirt, dust and spills. Approximately 1/4-inch thick. Fits mattress up to 14-inches thick. Machine washable. 3 year warranty. Canada.

T \$294 **F** \$348 **Q** \$348 **K** \$428 **CK** \$428

18. Oasis Wool Moisture Pad

Fine carded organic wool forms a completely water-repellent layer on your mattress. Protects the mattress from spills and stains while keeping it dry and breathable. 4 elastic bands anchor the pad to mattress. Line dry. 3 year warranty. Canada.

T \$145 **F** \$186 **Q** \$208 **K** \$265 **CK** \$265

32

NATURAL FIBERS, PERSONAL CHOICE

- Organic cotton and wool pillows are available in three fill weights, slim, regular and firm
- We recommend a slim loft for children and stomach sleepers, a regular loft for back or side sleeping, and finally a firm loft for side or reading
- Depths range from 3" to 5"
- Natural fiber pillows will compress to half original loft over time, this is normal and to be expected
- Use pillow barrier covers and air out regularly

PILLOWS

33. Oasis Wool-fill Pillow

Pure wool filling is garnetted to ensure it stays in place. Wool batting is rolled before filling the pillow cover to maximize pillow loft and durability. Heavy duty organic cotton shell. 3 lofts available, slim, regular and firm. 3 year warranty. Canada.

Dimensions	S 20x26	Q 20x30	K 20x36

43

44

Organic Cotton

Conventional, industrialized cotton is saturated with pesticides and herbicides, and it absorbs all the chemicals that modern fertilizers deposit in the soil. Machine-picked, it is full of impurities, oil, leaves and dirt.

Conversely, certified organically grown and processed cotton is better for you and for the planet. No synthetic defoliants, herbicides, pesticides or fertilizers are used or released into the environment. All chemicals are avoided in harvest, cleaning and manufacturing. Hand picking ensures that the resulting cotton fiber is the cleanest, purest and most resilient available.

We select products which use only chemical-free, hand-picked cotton. All cotton is certified organic by SKAL of the Netherlands or KRAV of Sweden.

- Void of toxic chemicals
- Strong and resilient
- Absorbent and breathable, maximizing air circulation, minimizing perspiration
- Comfortable and soft, so skin is never irritated
- Sustainable farming methods used
- Eliminates chemicals released into local farming community

ORGANIC – NATURALLY SAFE AND HEALTHY

- During the first year, babies spend more than 50% of their time sleeping
- Newborn babies are far more sensitive than adults to the chemicals found in conventional fabrics, crib mattresses and bedding
- Keep your newborn free of hazardous irritants in the nursery with an organic crib mattress sleep system
- Avoid dangerous toxins by choosing organic bedding products and clothing for your infant as well

47

BABY SLEEP SYSTEMS

45. Oasis Natural Rubber-Core Crib Mattress

Made with same care as our adult mattresses. The safest surface for your baby to sleep on. Rubber-core crib mattress with quilted organic wool padding and organic shell. Extremely resistant to mildews and dust mites. No chemicals, finishes or toxins. Extra-firm (ILD 45-50). 6-inch depth. 10 year warranty. Canada. 28x52/\$390

46. Oasis Organic Innerspring Crib Mattress

Made with same care as our adult mattresses. 100% chemical free components. Inner upholstery constructed using a unique quilting system; carded organic cotton batting and wool is quilted between layers of organic fabric to make a strong pad which covers the spring unit and provides a healthy, firm surface for the development of your child. Extra-firm. 6-inch depth. 10 year warranty. Canada. 28x52/\$310

47. Solid Maplewood Crib Frame

Renewable Wood

All bedroom frames and accessories use untreated, carefully selected, renewable Canadian & Pacific Coast Maple grown in managed forests in Washington and Oregon. Pacific Coast wood is never treated with synthetic glues, dyes or finishing sprays at any stage of production. Your home environment is protected from the toxic "off-gassing" that accompanies the use of harsh chemicals on conventional furniture. Each piece is handrubbed with tung oil and beeswax.

All box springs and foundations are hand constructed from seasoned, untreated, carefully selected natural woods such as spruce, poplar and ash. Grown in Quebec as a renewable resource, the trees are harvested by a sustainable harvesting method called *jardinage*. At the finishing stage, only natural waxes and non-toxic oils are used on the wood.

- Grown + harvested with sustainable methods
- Never treated with synthetic glues, dyes or finishes
- Protection from harmful off-gassing
- Strong wood eliminates creaking noises

HOME

93. Earthweave Bio-Floor Line

A pure, natural wool flooring surface, for those suffering from chemical sensitivities as well as those concerned about the environment. No dyes, pesticides or stain protections used. Superior comfort and durability from chemical free yarns.

The all natural backing (a combination of hemp and cotton) is designed specifically to be biodegradable and non toxic. The hardy hemp fiber is chosen due to its durability, strength and resistance to molds and mildews. The wool yarns are locked into place with a natural rubber adhesive; a jute secondary is used for the back of the carpet. Available as carpeting on full & cut roll, or as serged area rugs. USA. See web site for pricing & information.

Wool flooring styles: dolomite granite, dolomite snowfield, pyrennes wheat, mckinley snowfield, rainier snowfield, mckinley tussock, rainier tussock. **Natural padding styles:** rubber rug gripper, wool-based carpet padding.

Earthweave Bio-Floor line sample kit recommended. \$15

94. Eco-Silk Dupioni Drapery

Luxurious, lightweight fabric with a crisp feel, a smooth texture and a wonderful luster. Beautiful, 100% silks (no rayon, polyester or viscose) are produced using only dioxin free bleaches, no heavy metal dyes, formaldehyde or silicone finishing, only SKAL approved processing. Marigold, champagne, mossy stone, raspberry. India. 52-inches wide. 7' or 8' panels available. See web site for pricing.

95. Naural Hemp & Linen Window Treaments

Hemp and flax are strong, durable fibers. Beautiful, delicate drapery panels in 60% hemp/40% silk blend are unlined. Elegant linen curtains are lined with white flax/cotton blend and faced with a 100% flax. No dyes or chemicals. Rod pocket or used with clips. Natural and white. USA. 54x84/\$145 unlined, \$200 lined

96. Organic Cotton/Hemp Kitchen Towels

All materials organically grown by a collective of artisans, then harvested, processed and spun by hand. No chemicals ever used. Accented with stitched stripes in color. Vintage fabric 80% hemp/20% cotton. Romania. 17x25/\$15
